

PIZZA PIZZA ROYALTY INCOME FUND

Management's Discussion & Analysis

This quarterly report covers the period from July 1, 2006 to September 30, 2006 (the "Period") and the year-to-date results from January 1, 2006 to September 30, 2006. The Management's Discussion and Analysis of the results for this Period is dated October 31, 2006. A copy of this quarterly report and additional information about the Fund is available at www.sedar.com or www.pizzapizzaroyaltyincomefund.com.

OVERVIEW

The Fund completed its initial public offering in July 2005, and used the proceeds of the offering to indirectly acquire the trademarks owned by Pizza Pizza Limited ("Pizza Pizza") used in connection with the operation of all Pizza Pizza restaurants (the "PPL Rights"). The Fund also acquired, indirectly from a bank, a loan outstanding to Pizza Pizza in the principal amount of \$30 million (the "PPL Loan").

The Fund has licensed the PPL Rights to Pizza Pizza, for which Pizza Pizza pays a 6% Royalty on the system sales of those Pizza Pizza restaurants included in the specific royalty pool (the "Royalty Pool"). There are 501 restaurants in the Royalty Pool for the year 2006.

From inception, the Fund adopted the new guideline of Canadian Institute of Chartered Accountants referred to as "AcG-15", Consolidation of Variable Interest Entities. As a result, the Fund's subsidiary, the Pizza Pizza Royalty Limited Partnership (the "Partnership"), is accounted for on the equity basis. Pizza Pizza, the operating company that pays the 6% royalty to the Partnership, consolidates the Partnership based on this same guideline.

Annually, on January 1 (the "Adjustment Date"), an adjustment is made to the Royalty Pool to include the forecasted system sales from new Pizza Pizza restaurants opened on or before December 31 of the prior year, less system sales from any Pizza Pizza restaurants that have been permanently closed during the year. The change in the amount of the Royalty due to the Partnership as a result of changes in the system sales of the Royalty Pool will affect Pizza Pizza's retained interest through an adjustment to the rate at which the Class B Partnership units may ultimately be exchanged for Units of the Fund. On the Adjustment Date, the adjustment to the Class B Exchange Multiplier (as defined in the License and Royalty Agreement) involves first calculating the "Determined Amount", which is defined as 92.5% of the royalty revenue added to the Royalty Pool, divided by the prevailing yield of the Fund units. The Determined Amount is multiplied by 80%, then divided by the current market price of the units, and then further divided by the number of Class B Partnership units outstanding. This fraction is added to the Class B Exchange Multiplier from the preceding year, which was "one" on the closing of the initial public offering. On the following Adjustment Date, a second adjustment to the Class B Exchange Multiplier will be made in the same manner once the system sales for new restaurants are known with certainty. The adjustment for new restaurants rolled into the Royalty Pool is designed to be accretive for current unitholders.

If, during a year, a restaurant is closed, the sales of the restaurant from the closing date would no longer be included in the calculation of the royalty payable to the Partnership by Pizza Pizza. To compensate for this, the License and Royalty Agreement and the Limited Partnership Agreement provide that an amount (the Make-Whole Payment) reflecting the reduction in the royalty resulting from the restaurant closure will be paid by Pizza Pizza to the Partnership for the balance of the year in which the restaurant was closed, commencing from the closing date. The Make-Whole Payment will be the sales of the closed restaurant for the first 52-week period in which it was included in the Royalty Pool multiplied by the royalty rate, payable as to one-twelfth per month.

Pizza Pizza has an effective 20.3% interest in the Fund and has agreed to maintain at least a 20% interest until June 30, 2007. Distributions on the 20% interest will be subordinated during the hold period pursuant to the terms of the Subordination Agreement.

PIZZA PIZZA ROYALTY INCOME FUND Management's Discussion & Analysis

Pizza Pizza's interest in the earnings of the Partnership is from its ownership of Class B and Class C Partnership units. Subject to the Subordination Agreement, each Class B Unit can be exchanged indirectly for that number of units equal to the Class B Exchange Multiplier as defined in the License and Royalty Agreement applicable at the date of the exchange. Class C Units can be exchanged by requiring the Fund to purchase those Class C Units in consideration of the assumption by the Fund of an amount of the indebtedness under the PPL Loan equal to \$10.00 per Class C Unit transferred.

A key attribute of the Fund's structure is the fact that it is a "top-line" fund. Royalty income of the Fund is based on top-line system sales of the Royalty Pool restaurants and is not determined by the profitability of either Pizza Pizza or the Pizza Pizza restaurants in the Royalty Pool. Given this structure, the success of the Fund depends primarily on the ability of Pizza Pizza to maintain and increase system sales of the Royalty Pool.

Increases in system sales are derived from both the development of new Pizza Pizza restaurants and same store sales growth ("SSSG"). The key metric for yield growth of the Fund is SSSG which is dependent on maintaining operational excellence within each Pizza Pizza restaurant, general market conditions, pricing, and marketing programs undertaken by Pizza Pizza. One of Pizza Pizza's competitive strengths in increasing SSSG is that over 90% of the restaurants in the chain are new or renovated within the past six years. Increased seating is available in these renovated restaurants, offering Franchisees the ability to concentrate on increasing lunch sales, thereby potentially increasing same store sales. Management is focused on completing the renovation program over the next twelve months.

PIZZA PIZZA ROYALTY INCOME FUND Management's Discussion & Analysis

FINANCIAL HIGHLIGHTS

Below are the results of Fund's first, full four quarters of operations.

Equity earned by the Fund through its interest in the Partnership and interest income from the Pizza Pizza Limited Loan have been derived as shown in the table below:

Pizza Pizza Royalty Limited Partnership Analysis of Distributable Cash

	Three Months ended September 30, 2006	Three Months ended June 30, 2006	Three Months ended March 31, 2006	Three Months ended December 31, 2005	Most Recent Four Quarters ended September 30, 2006

(1) The Fund, indirectly through the Partnership, incurs administrative expenses and interest expense on the \$20 million outstanding bank loan. Interest expense on the bank loan for the current Period was \$255 thousand.

(2) Represents the interest of Pizza Pizza in the earnings of the Partnership from Class B and Class C Partnership units. The Class B units are exchangeable into Fund units based on value of the Class B Exchange Multiplier at the time of exchange as defined in the Licence and Royalty Agreement.

(3) For the period ended March 31, 2006, earnings shown in the table excludes a \$635 thousand non-cash accounting loss on an effective disposition of 0.3% interest in the Partnership as a result of the vending in of one net new restaurant by Pizza Pizza thereby increasing Pizza Pizza's exchange multiplier. (See "Restaurants Added to the Royalty Pool")

(4) For December 31, 2005, earnings shown exclude structuring costs of \$9.5 million related to indirectly receiving proceeds from the Fund's initial public offering. The structuring costs were expensed during 2005 since they were determined to be a cost without a future benefit.

(5) The Fund indirectly earns interest income on the \$30 million loan to Pizza Pizza, with interest income accruing at 6% per annum, payable monthly.

PIZZA PIZZA ROYALTY INCOME FUND Management's Discussion & Analysis

Restaurants Added to the Royalty Pool [See "Fund Operations-Loss on effective disposition"]

On January 1, 2006, one net, new restaurant was added to the Royalty Pool as a result of five new restaurants opening from March 14, 2005 to September 1, 2005 and four closing from March 14, 2005 to December 31, 2005. The additional system sales from the one new restaurant are estimated at \$1.4 million annually. The total number of restaurants in the Royalty Pool has increased to 501. The yield of the Fund units was determined to be 8.06% calculated using \$9.97 as a weighted average unit price based on the market price of the units traded on the TSX during the period of 20 consecutive days ending on the fifth trading day before January 1, 2006. As a result of the contribution of the additional net sales to the Royalty Pool, Pizza Pizza's Class B Exchange Multiplier increased fractionally by 80% of the total adjustment or 0.01674; the new Class B Multiplier is 1.01674. This adjustment will increase Pizza Pizza's entitlement to distributions of cash and allocations of income on the Class B Units from the Partnership. The second adjustment to the Class B Exchange Multiplier will be made effective as of January 1, 2006 once the actual performance of the new restaurant is determined.

In lieu of converting the new entitlements into Fund units, Pizza Pizza has increased the Class B Exchange Multiplier. As a result, Pizza Pizza Limited now holds Class B Partnership units exchangeable into 4,563,120 Fund units which equates to 20.3% of the fully diluted units of the Fund, or an additional 0.3% Partnership ownership. As a result of the effective disposition of 0.3% of its interest in the Partnership, the Fund now has a 79.7% effective ownership in the Partnership and has reported in its results for the first quarter of 2006 a non-cash loss of \$635,000. This loss would be reversed if, in future periods, Pizza Pizza converted its additional Class B units into Fund units and sold them.

Change to the Seasoning Period for New Restaurants Added to the Royalty Pool

During the current quarter the Board of Trustees unanimously approved amendments to the License and Royalty Agreement with Pizza Pizza and amendments to related provisions of the Partnership Agreement of the Partnership that will result in a removal of the requirement that a restaurant be open for at least 120 consecutive days before it may be included in the Royalty Pool for the subsequent year. The removal of the 120-day seasoning period involves only a change in the timing of the inclusion of restaurants in the Royalty Pool and not the substance of the relationship between Pizza Pizza and the Fund. Previously, restaurants opened after September 1 of a given year would not be included in the Royalty Pool until January 1 of the second following year.

Pizza Pizza requested elimination of the 120-day seasoning period in order that the restaurant opening period would coincide with the fiscal year of the Fund. This change will benefit management's reporting of restaurant openings and closures in relation to the number of restaurants in the Royalty Pool. Existing safeguards, including the holdback arrangement described herein (see "Overview"), will continue to ensure that additional entitlements awarded to Pizza Pizza upon adding new restaurants to the Royalty Pool are reconciled based on actual system sales one year after being added to the Royalty Pool. This change will affect the determination of the Royalty Pool as at January 1, 2007 and subsequent years and the corresponding entitlements of Pizza Pizza to indirectly acquire additional Fund units. For January 1, 2007, new restaurants opened between September 1, 2005 and December 31, 2006 will be added to the Royalty Pool. For each January 1 thereafter, restaurants opened between January 1 and December 31 of the prior year will be included in the calculation.

PIZZA PIZZA ROYALTY INCOME FUND

Management's Discussion & Analysis

ROYALTY POOL SALES

System sales from the 501 restaurants in the Royalty Pool were \$90.8 million for the three months ended September 30, 2006 and were \$259.2 million for nine months ended September 30, 2006.

For the prior year period from July 6, 2005 to September 30, 2005, system sales for the 500 restaurants in the Royalty Pool were \$83.6 million.

Pizza Pizza's system sales for the quarter ended March 31 have generally been the softest quarter and the December 31 quarter system sales have been the strongest due to seasonality of the business.

Same Store Sales Growth, the key driver of yield growth for unitholders of the Fund, increased by 4% for the second quarter and increased 4.5% for the nine months ended September 30, 2006 compared with the same period in 2005.

The latest industry statistics released by the Ontario Ministry of Tourism reported U.S. border crossings to Ontario decreased by 12.2% in July 2006 over July 2005 and by 9.3% in the first seven months of 2006 over the same period in 2005. A decrease in Ontario tourism, both U.S. and international, has negatively impacted sales at a select number of our restaurants during the current quarter and year-to-date. Particularly affected during the summer months were sales at some of our outdoor-themed, nontraditional locations.

OPERATING RESULTS

The operations of the Fund and Partnership are separately analyzed in the following information to provide a better appreciation of the financial condition and results of the Fund and should be read in conjunction with the Fund's quarterly consolidated financial statements and accompanying notes. The financial statements for the quarter from July 1, 2006 to September 30, 2006 and the year-to-date results from January 1, 2006 to September 30, 2006, have been prepared in accordance with Canadian Generally Accepted Accounting Principles.

Partnership Operations

The Partnership, which is 79.7% owned by the Fund at September 30, 2006, earns a 6% royalty income on the Royalty Pool system sales of the Pizza Pizza restaurants. The Fund earns equity income from its investment in the Partnership. The Fund's equity income from the Partnership is calculated as the royalty income less the Partnership's operating expenses less earnings attributable to Pizza Pizza. The following provides information on the Partnership performance for the quarter and nine months ended September 30, 2006.

Revenues

Royalty Income earned by the Partnership was \$5.4 million for the quarter and \$15.6 million for the nine months ended September 30, 2006. The 6% royalty is earned on the Royalty Pool of 501 Pizza Pizza restaurants reporting \$90.8 million in system sales for the quarter and \$259.2 million for the nine months ended September 30, 2006.

Royalty Income earned by the Partnership for the prior year period from July 6, 2005 to September 30, 2005 was \$5 million and the 500 Pizza Pizza restaurants in the Royalty Pool reported System Sales of \$83.6 million.

Expenses

The Partnership's operating expenses include administrative expenses, amortization of deferred financing fees and interest paid on a \$20 million bank term loan. [See "Liquidity and Capital Resources-Term Loan".]

PIZZA PIZZA ROYALTY INCOME FUND

Management's Discussion & Analysis

Operating expenses for the quarter were \$390,000, including \$255,000 of interest expense on its \$20 million credit facility, \$122,000 of administrative expenses, and \$13,000 in amortization of deferred financing fees. Operating expenses for the first nine months were \$1.3 million including \$805,000 of interest expense on its \$20 million credit facility, \$442,000 of administration expenses, and \$37,000 in amortization of deferred financing fees.

For the prior year period from July 6, 2005 to September 30, 2005, operating expenses were \$363,000, including \$262,000 of interest expense, \$89,000 of administrative expenses and \$12,000 in amortization of deferred financing fees.

Net earnings

The Partnership had net earnings for the quarter of \$5.1 million and \$14.3 million for the nine months ended September 30, 2006, which were allocated to the Fund and Pizza Pizza based on their respective interest in the Partnership.

For the period from July 6, 2005 to September 30, 2005, net earnings were \$4.6 million.

Selected Partnership balance sheet items

(in thousands of dollars)

Current Assets	2,499
Total Assets	233,173
Current Liabilities	1,419
Loan Payable	20,000
Total Liabilities & Equity	233,173

Fund Operations

Equity income is earned by the Fund through limited partnership holdings of LP units representing its effective 79.7% interest in the Partnership. Interest income is earned on a \$30 million loan to Pizza Pizza Limited (the "PPL Loan") and is calculated at 6% per annum, payable monthly.

Equity income in the Partnership

Equity Income earned for the quarter and the nine months ended September 30, 2006 by the Fund from its investment in the Partnership was \$3.7 million and \$10.3 million respectively.

Equity Income earned for the prior year period from July 6, 2005 to September 30, 2005 was \$3.4 million.

Loss on effective disposition of Partnership interest [See "Restaurants Added to the Royalty Pool"]

As a result of Pizza Pizza's Class B Exchange Multiplier increasing on January 1, 2006, the Fund effectively disposed of 0.3% of its interest in the Partnership and now has a 79.7% effective ownership. The disposition resulted in a \$0.6 million non-cash loss for the quarter ended March 31, 2006. This loss would be reversed if, in future periods, Pizza Pizza converted its additional Class B units into Fund units and sold them.

Interest Income

The interest income for the second quarter and nine months ended September 30, 2006 was \$450,000 and \$1.4 million respectively, earned on the \$30 million loan from the Fund to Pizza Pizza, with interest paid monthly at 6% per annum.

Interest income for the prior year period from July 6, 2005 to September 30, 2005 was \$430,000.

PIZZA PIZZA ROYALTY INCOME FUND
Management's Discussion & Analysis

Net earnings

Net earnings for the quarter were \$4.1 million or \$0.229 per unit; net earnings for the nine months ended September 30, 2006, before loss on disposition described above, were \$11.7 million, or \$0.648 per unit. The non-cash loss on disposition reduced the Fund's net earnings to \$11.0 million for the nine months, or \$0.613 per unit.

Net earnings for the prior year period July 6, 2005 to September 30, 2005 were \$3.8 million or \$0.212 per unit.

Distributions

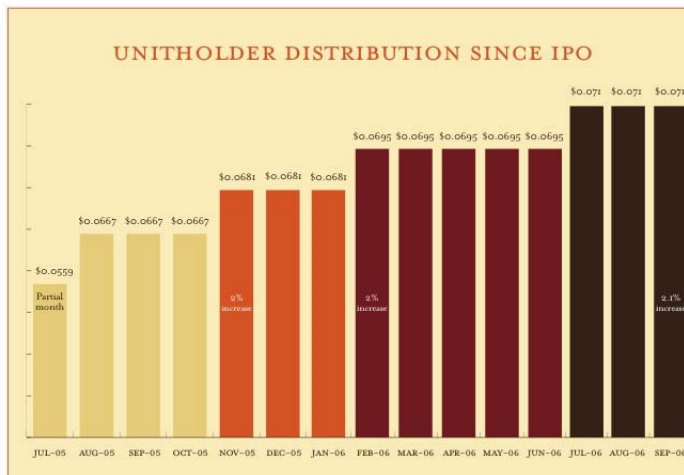

The Fund declared distributions of \$3.8 million or \$0.213 per unit for the quarter, equating to a 93% payout ratio; the Fund declared distributions of \$11.3 million for the nine months ended September 30, 2006 or \$0.629 per unit for a payout ratio equal to 97%. The payout ratio for the last 12 months was 95%. As of September 30, 2006, working capital of the Partnership was \$1.1 million, accumulated as a cash reserve to cover seasonality and any unusual administrative expenditures.

For the prior year period July 6, 2005 to September 30, 2005 the Fund declared distributions of \$3.4 million or \$0.189 per unit, equating to an 89% payout ratio. As of September 30, 2005, working capital of the Partnership was \$554,000.

For those unitholders holding units outside a tax deferred plan, the 2006 distributions are projected to be treated as 47% taxable income and 53% as a tax-deferred return of capital.

During the quarter, the Fund increased the July distribution by 2.1%. Distributions declared for 2006 are as follows:

<u>Period</u>	<u>Payment Date</u>	<u>Amount/unit</u>
January 1-31, 2006	February 15, 2006	6.81¢
February 1-28, 2006	March 15, 2006	6.95¢
March 1-31, 2006	April 13, 2006	6.95¢
April 30, 2006	May 15, 2006	6.95¢
May 31, 2006	June 15, 2006	6.95¢
June 30, 2006	July 14, 2006	6.95¢
July 31, 2006	August 15, 2006	7.10¢
August 31, 2006	September 15, 2006	7.10¢
September 30, 2006	October 13, 2006	7.10¢

PIZZA PIZZA ROYALTY INCOME FUND

Management's Discussion & Analysis

LIQUIDITY & CAPITAL RESOURCES

The Fund's distribution policy is to distribute all available cash, after allowing for reasonable reserves held at the Partnership level. In light of seasonal variations that are inherent to the restaurant industry, the Fund's policy is to make equal distribution payments to Unitholders on a monthly basis in order to smooth out these fluctuations. Any further increase in distributions will be implemented in such a manner so that the continuity of uniform monthly distributions is maintained.

As of September 30, 2006, working capital of the Partnership was \$1.1 million, accumulated as a reserve to cover seasonality and any unusual administrative expenditures.

The Deficit shown in the Unitholders' equity section of the Fund's consolidated balance sheet is a result of a 2005 equity loss allocation of \$9.5 million due to the Partnership expensing structuring costs of \$11.9 million in the initial year of operations. The structuring costs expensed by the Partnership were related to and paid from the Fund's initial public offering proceeds and were determined to have no future benefit as an asset.

Term Loan and Operating Loan

The Partnership has a \$20 million non-revolving, three-year term loan facility, which was arranged during the initial public offering to partially finance the purchase of the PPL Rights from Pizza Pizza. As security for repayment of the facility, Pizza Pizza Limited granted to the Partnership a continuing, general security interest, subject to certain exceptions, in all present and acquired property of Pizza Pizza, which may not be assigned without the prior consent of Pizza Pizza. The facility bears interest at Prime plus 0.50% to 0.75% or the Bankers Acceptance rate plus 1.75% to 2.00%, depending on the level of funded debt to EBITDA, defined as annualized earnings before interest, taxes, depreciation and amortization. During 2005, the interest rate on the facility was fixed with an interest rate swap through January 6, 2010 at 3.55% plus 1.75% to 2% credit spread dependent upon the Fund's annualized EBITDA. In the initial four quarters of operations the interest rate swap was fixed at 3.55% plus 2%. Since the Fund has operated for four consecutive quarters and has achieved an annualized EBITDA of \$20 million, the credit spread is now 1.75%, reducing the effective fixed interest rate on the loan to 5.3%.

The Bank has also granted an extendable 364 day, committed, revolving operating facility for up to \$1 million; no funds have been drawn on this facility.

CRITICAL ACCOUNTING ISSUES

The Fund's only critical accounting estimate is the valuation of its investment in the Partnership. As the Partnership's only significant assets are intangible assets consisting of the PPL Rights, the valuation of the Fund's investment is based primarily upon the valuation of intangible assets in the Partnership. The PPL Rights are not amortized as they have an indefinite life. The Pizza Pizza GP, Inc., as the general partner of the Partnership and administrator of the Fund, reviews the carrying values of the intangible assets in the Partnership and the Fund's investment at least annually, taking into consideration any events or circumstances which may have impaired the carrying values of these items. If permanent declines in the carrying amounts are determined, these items are written down to their estimated net recoverable amount. The Pizza Pizza GP, Inc. believes that there have been no declines in either the carrying value of the intangible assets in the Partnership or in the carrying value of the Fund's investment in the Partnership as of September 30, 2006.

PIZZA PIZZA ROYALTY INCOME FUND Management's Discussion & Analysis

OUTLOOK

Pizza Pizza management has advised the Trustees that, in 2006, it expects to grow the number of restaurants in the Ontario network by 4% and to continue researching potential expansion opportunities outside its predominantly Ontario market, with any potential expansion coming either through organic growth or acquisitions. Pizza Pizza expects to continue franchising its remaining Company restaurants.

Same Store Sales Growth, the key driver of yield growth for distributions, was 4% for the quarter ended September 30, 2006 and 4.5% year-to-date, compared with the same period in 2005. With the continued increase in same store sales, the Fund increased the July 2006 distribution from \$0.0695 to \$0.071.

Subsequent to September 1, 2005, the date by which restaurants must have been opened to be considered for inclusion in the 2006 Royalty Pool, and prior to September 30, 2006, Pizza Pizza has opened 23 new locations, six of which are traditional locations and 17 are non-traditional. Subsequent to December 31, 2005 and prior to September 30, 2006, Pizza Pizza has closed five locations, all but one were nontraditional. The net royalties from these restaurants plus any others opened or closed through December 31, 2006 will be considered in the calculation of the 2007 Royalty Pool.

With over 90% of traditional restaurants expanded or relocated within the last six years, Pizza Pizza offers expanded seating capacity, thereby targeting additional day-parts and allowing for additional product offerings to enable restaurants to continue increasing same store sales. Management is focused on completing the renovation program over the next twelve months.

RISKS & UNCERTAINTIES

The Fund continues to recognize certain risks and uncertainties associated with the ordinary course of business, including those associated with the business and operations of Pizza Pizza, upon which the Fund relies solely for its income.

The Restaurant Industry

The performance of the Fund is directly dependent upon the royalty and interest payments received from Pizza Pizza. The amount of royalty received from Pizza Pizza is dependent on various external factors that may affect the limited service sector of the restaurant industry. The restaurant industry, generally, is intensely competitive with respect to price, service, location and food quality. Competitors include national and regional chains, as well as independently owned restaurants. If Pizza Pizza and Pizza Pizza franchisees are unable to successfully compete in the limited service sector, System Sales may be adversely affected, the amount of royalty reduced and the ability of Pizza Pizza to pay the royalty or interest on the PPL Loan may be impaired. Changes in demographic trends, traffic patterns, and the type, number, and location of competing restaurants also affect the restaurant industry. In addition, factors such as government regulations, smoking bylaws, inflation, publicity from any food borne illnesses, increased food, labour and benefits costs, and the availability of experienced management and hourly employees may adversely affect the restaurant industry in general and therefore, potentially, Pizza Pizza System Sales. Pizza Pizza's success also depends on numerous factors affecting discretionary spending, including economic conditions, disposable consumer income and consumer confidence. Adverse changes in these factors could reduce guest traffic or impose practical limits on pricing, either of which could reduce sales and operating income, which could adversely affect revenue, the royalty and the ability of Pizza Pizza to pay the royalty to the Fund or interest on the PPL Loan.

PIZZA PIZZA ROYALTY INCOME FUND

Management's Discussion & Analysis

Litigation

In the first quarter of 2006, Pizza Pizza Royalty Income Fund received an update from Pizza Pizza Limited ("PPL") regarding a potential claim disclosed in the Fund's 2005 initial public offering prospectus and PPL's subsequent financial statement filings.

The claim, which does not name the Fund or its subsidiaries, was formally served on PPL and certain of its associates by Lawrence Austin, a former consultant to PPL. In the claim, Mr. Austin asserts a right to \$45 million in damages and other amounts, including entitlements to a portion of the proceeds of the Fund's IPO that were directly or indirectly received by PPL and its associates.

PPL has advised the Fund that it believes the demand to be without merit and it will vigorously defend the claim. The Fund notes that Michael Overs, the Chairman and CEO of PPL, has agreed in an indemnity agreement to indemnify PPL and the Fund against any liabilities they may incur in this matter.

Other

For a more detailed list of risks and uncertainties please refer to the Fund's Annual Information Form which is available at www.sedar.com.

FORWARD LOOKING STATEMENTS

Certain statements in this report may constitute "forward-looking" statements which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward looking statements. When used in this report, such statements include such words as "may", "will", "expect", "believe", "plan", and other similar terminology. These statements reflect management's current expectations regarding future events and operating performance and speak only as of the date of this report. These forward-looking statements involve a number of risks and uncertainties. The following are some factors that could cause actual results to differ materially from those expressed in or underlying such forward-looking statements: competition; changes in demographic trends; changing consumer preferences and discretionary spending patterns; changes in national and local business and economic conditions; legislation and governmental regulation; accounting policies and practices; and the results of operations and financial condition of Pizza Pizza. The foregoing list of factors is not exhaustive.

ADDITIONAL INFORMATION

Additional information about the Fund including the Fund's most recent Annual Information Form is available on SEDAR at www.sedar.com.
